

# Team Development

“...teamwork is not a virtue. It is a choice—and a strategic one.”  
— Patrick Lencioni, The Advantage

Teams are not for the faint of heart. They require:

- Time
- Energy
- Resources

None of which occur without the commitment from individual members and the support of leadership.

Whether you are launching a new team or concerned about the performance of an existing team, THRIVE VILLAGE can support these efforts through team retreats/advances, coaching and as an embedded advisor.

## We Can...

- **Evaluate** team performance using validated and reliable assessments
- **Develop** the discipline required to launch new teams using proven processes
- **Introduce** processes and tools to keep the team organized, accountable and on target
- **Strengthen** relationships among members by raising individual awareness and management of self and others
- **Coach** the team as they implement new skills necessary for high performance
